

ACCADEMIA

BECOME A REAL BARISTA WITH GAGGIA ACCADEMIA

An Espresso per favore! No wait a cappuccino or a latte macchiato... Gaggia Accademia offers you all the secrets of a professional Barista in just one touch, at home.

A MASTERPIECE OF TECHNOLOGY

Immutable beauty blending modernity and tradition: Gaggia Accademia has clean, elegant and distinctive lines that were designed to outlive fads and trends. An inspired combination of materials gives the product a strong, solid appearance: a fingerprint-proof brushed steel front panel and metal body with an exclusive matt-black coating on the sides, and a beautiful polished steel frame and drip tray.

ACCADEMIA

Your professional barista.

HIGHLIGHTS & FEATURES

PROFESSIONAL RESULTS AND ECO-INTELLIGENCE

Gaggia strives to achieve consistent performance and quality in all its products, and the Gaggia Accademia features several technologies designed to ensure them: an integrated ceramic grinder, the opti-aro-ma system, and innovative Espresso Plus System. And like all new Gaggia products, each component of the machine was carefully designed to save energy. In fact, the Gaggia Accademia has a Class A energy label: in stand-by mode, the energy consumption is less than 1 watt.

It also comes with an Eco-mode System that makes it possible to deactivate one of the two boilers provided, depending on typical use.
